

LOOK FOR THE SEAL!

WHAT IS GLUTEN?

Gluten is a type of protein that gives bread and other baked goods their chewy texture. It is present in wheat and other grains, such as barley, rye and spelt.

WHAT IS GLUTEN SENSITIVITY, AND WHY SHOULD I BE CONCERNED?

People may be gluten sensitive. Symptoms of gluten sensitivity can include headaches, joint pain and fatigue, but many people show none of these signs. Also, gluten can lead to chronic inflammation and open the door to a variety of health conditions.

WHAT CAN I DO?

If you have this concern, reduce or eliminate the amount of gluten in your diet. Common gluten-containing foods include bread, pasta and cereal. **Because determining gluten content isn't always easy, Market America has created a seal for all gluten-free Market America products.**

ISOTONIX® PRODUCTS

- Açai
- Activated B-Complex
- Calcium Plus
- Vitamin C
- Champion Blend Plus
- Coenzyme Q10
- Vitamin D with K2
